### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the closest prior art is to Fay et al (US 4087568) and WO 98/41805 (hereinafter '805). As discussed in the March 18, 2004 Office Action, Fay teaches a method for controlling coating and drying of a paper web. For the drying unit a an evaporation/drying rate model is provided for computing the amount of liquid removed by the drying unit, and this is linked to/corresponds to the composite evaporation/drying rate model, since only one drying unit is provided, so the model for one is also the composite model for all. '805 also teaches coating a paper web with a drying system whereby the residual moisture of the web can be checked. However, none of the references teaches or suggests, alone or in combination, the invention as is now claimed. As to independent claim 14, neither of the references teaches or suggests the use of multiple drying units with an evaporation rate submodel for each drying unit and controlling the moisture evaporation rate without measuring an actual amount of liquid removed by any individual drying unit as claimed. Furthermore, as to the other independent claim, claim 27, neither of the references teaches or suggests the determining of a submodel for the dryer, coater and open draw and using a composite drying effect model with the combination of submodels as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. The amendment of August 23, 2004 removes all the pending objections and rejections to the claims. Claim 16, which was objected to, has been canceled. The 35USC 103 rejections of the claims have been withdrawn as the references do not render the claims obvious for the reasons discussed in paragraph 1 above.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Katherine A. Bareford whose telephone number is (571) 272-1413. The examiner can normally be reached on M-F(6:30-4:00) with the First Friday Off.
